Gained Forty Pounds in Thirty Days.
For several months our younger brother had been troubled with indigestion. He tried several remedies but got no benefit from them. We purchased some of Chamberlain's Stomach and Liver Tablets and he commenced taking them. Inside of thirty days he had gained forty pounds in flesh. He is now fully recovered. We have a good trade on the Tablets.—Holley Bros., Merchants, Long Branch, Mo. For sale by A. E. Howell, Socorro; W. M. Borrowdale, Magdalena.

Do Good—It Pays.

A Chicago man has observed that, "Good deeds are better than real estate deeds—some of the latter are worthless. Act kindly and gently, show sympathy and lend a helping hand. You cannot possibly lose by it." Most men appreciate a kind word and encouragement more than substantial help. There are persons in this community who might truthfully say: "My good friend, cheer up. A few doses of Chamberlain's Cough Remedy will rid you of your cold, and there is no danger whatever from pneumonia when you use that medicine. It always cures. I know it for it has helped me out many a time." Sold by A. E. Howell, Socorro; W. M. Borrowdale, Magdalena.

The Result of Experience.

Mr. Garmack may be surprised at the result in Maine, but Mr. Bryan has got to be quite an experienced politician, and the experience he has accumulated is all of the bitter variety.—Toledo Times.

Can a Ten Penny Nail Through His Hand.

While opening a box, J. C. Mount, of Three Mile Bay, N. Y., ran a ten penny nail through the fleshy part of his hand. "I thought at once of all the pain and soreness this would cause me," he said, "and immediately applied Chamberlain's Pain Balm and occasionally afterwards. To my surprise it removed all pain and soreness and the injured parts were soon healed." For sale by A. E. Howell, Socorro; W. M. Borrowdale, Magdalena.

Their New Sphere.

Stage robbing, according to a California newspaper, is rapidly dying out. The road agents undoubtedly realize that it is easier and safer to move to St. Louis and get into the city council.—Chicago Chronicle.

OLD PEOPLE

Do not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and unavoidable at their time of life. It is a sad and infinitely should not always be associated with old age. The eye of the gray-haired grandparent may be as bright and the complexion as fair as any of his younger and more vigorous companions.

Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm; but when this fluid is polluted or poisoned and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and rheumatic and neuralgic pains become almost constant, accompanied with poor digestion and cold extremities.

S. S. S. being purely vegetable, is the safest and best blood purifier for old people. It does not shock or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs, when all bodily ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S. will search it out and remove every vestige of it from the system.

Write us fully about your case and let our physicians advise and help you. This will cost you nothing, and we will mail free our book on blood and skin diseases.

REPUBLICAN RESOLUTIONS

Adopted at the Territorial Convention held at El Paso October 10.

The Raton convention, after suitable expression of sorrow at the untimely death of President McKinley, adopted the following resolutions, viz:

Be it resolved,
That we again endorse the National Republican platform at Philadelphia upon which President McKinley and President Roosevelt were elected, and under which prosperity has continued in our land, our prestige has been increased abroad, and a new republic has been added to the nations of the world. By the wise and patriotic administration of President McKinley and its continuance by his successor, American industries have prospered as never before and our commerce has expanded until the world is our market.

That we recognize in President Roosevelt a fit successor to President McKinley, faithfully carrying out his policies, and when new emergencies arise, meeting them with the strong courage of conviction. And we believe President Roosevelt has shown that he deserves the position which he now holds by the suffrages of the people, instead of by statute, and we heartily favor his nomination for president in 1904, when we hope to cast for him our first electoral vote.

We most heartily endorse the administration of Governor Otero in the territory, which has resulted in improving our financial standing and moral credit at home and abroad. It has induced new capital to come into the territory, and protected what was already here. And especially we endorse his personal and official efforts to improve the method of assessments and taxation which have resulted in adding one and one-half million to our tax rolls for the present year. His official and personal conduct has been subject to the most searching scrutiny by two presidents and two senates with the result that it has been approved by them, and on that result we sincerely congratulate him.

We endorse our delegate to congress, Hon. B. S. Rooley, for his earnest and untiring efforts on behalf of the territory not only in Washington but wherever he might be, and especially

for his tireless exertions to secure us statehood, which have resulted in getting us nearer that desired position than ever but once before. And we urgently pray the honorable senate of the United States at once to take up and pass the bill now before it for our admission as a state.

We denounce the so-called "Stephens or Culbertson bill" now pending in congress which is aimed to deny us the use of our waters for the benefit of certain individuals in Texas and Mexico, and earnestly pray as a matter of right and justice that the government cause its suit now pending to prevent the storage of water at the Elephant Butte dam to be withdrawn, in order that this great work of internal improvement may proceed.

We extend our hearty thanks to congress for the passage of the bill establishing reservoirs in the western states and territories and hail it as a long step in the direction of recognizing the claims of the west for assistance which has been so long monopolized by the east.

We pray that congress may so amend the act donating lands to the territory that the sale and leasing of the same may not be restricted as now, in order that we may derive more immediate revenue for the benefit of our common schools and public institutions.

We believe the action of congress in the government of the Philippines to be wise, just and humane, and must result in great ultimate good to those people and that the retention of the army there is a necessity caused by their own acts and for which they alone are responsible, and we believe that the conduct of that army under the most trying circumstances of climate and conditions to have been most praiseworthy and humane. We denounce as unworthy of the name those Americans who have assailed that army and sought to bring discredit upon the gallant officers and men who are upholding our flag in that far-away country.

We affirm that the Republican party is the first and only one to take any practical steps towards the suppression or control of so-called trusts or unlawful combinations of capital. The "Sherman law" passed by congress in 1890 has not proved adequate to the end, but the Republican party through its president and law officers is endeavoring by every legal means to control such combinations where they exist and a special bill is now being framed to be presented at coming congress for that purpose, and we denounce as willful falsehoods all charges made by the Democrats, that the Republican party is in favor of or in any manner friendly to such combinations of capital.

Resolved that we regard the coal oil inspection law as detrimental to the best interests of the people of the territory and we recommend its repeal at the earliest possible moment.
